EDUCATION

Vivekananda Institute of Professional Studies-Technical Campus

Bachelor of Technology in Computer Science and Engineering (Current CGPA: 8.7)

Delhi, India
2024 – Present

Delhi Skill and Entrepreneurship University

Diploma in Electronic and Communication Engineering (CGPA: 9)

Delhi, India
2021 – 2024

SKILLS

Data Analytics: SQL (MySQL, JDBC), Python (pandas, numpy, matplotlib, seaborn), Power BI, DAX, Data Modeling, EDA, Tableau

Programming: Python, Java, JavaScript, C++, HTML/CSS, R

Databases: MySQL, Firebase (Realtime DB & AUTH), JDBC

Tools & Technologies: GitHub, Jupyter Notebook, VS Code, Lucidchart, Canva, Microsoft Excel

AI & Productivity: AI-assisted workflows, Prompt Engineering, ChatGPT / Claude for productivity

Product & Analytical Thinking: Metrics Definition, Funnel Analysis, A/B Testing Concepts, Business Analysis, Process Mapping

PROJECTS

IPL Data Analysis Dashboard (2008-2025)

Tech Stack: Power BI, DAX, Data Modeling, Data Cleaning, Data Visualization

- Analyzed 17 seasons of IPL match data across 800+ games to uncover team performance trends and seasonal patterns.
- Built dynamic Points Table with DAX-based ranking logic, Orange Cap & Purple Cap tracker, and champion/runner-up history.
- Performed end-to-end analytics workflow: data collection → cleaning & transformation → EDA → visualization.
- Relevant to gaming/streaming platforms where seasonal engagement spikes, creator leaderboards, and retention metrics mirror sports analytics

Medical Assistant – Patient Record & Diagnosis Helper

Tech Stack: Java, SQL (JDBC + MySQL)

- Built a desktop system to manage patient records, diagnoses, and appointment tracking with a relational SQL backend.
- Wrote intermediate SQL queries for data extraction, filtering, and retrieval of patient history, prescriptions, and doctor notes.
- Managed records for 100+ patients across 3 relational tables using JOINS and aggregate queries

Nutri-Scan — AI-Driven Nutrition Assistant

Tech Stack: Firebase (Authentication & Realtime Database), JavaScript

- Designed an AI-driven assistant delivering personalized diet recommendations based on structured user inputs.
- Integrated Firebase for real-time data storage and user authentication; implemented webcam-based health diagnostics.

EXPERIENCE

Data Analyst Trainee (Internship) | MedTourEasy

2025

- Completed the Google Data Analytics Professional Certificate (9-course program) as part of the internship, sponsored by MedTourEasy.
- Cleaned and prepared large datasets for analysis; wrote SQL queries for data extraction and exploration.
- Built dashboards and visualizations in Tableau to communicate insights to stakeholders.
- Conducted data analysis using R programming; completed a full capstone case study applying end-to-end analytics workflow.
- Gained hands-on experience across the full data pipeline: collection → cleaning → analysis → visualization → reporting.

CERTIFICATES

- Google Data Analytics Professional Certificate (9 courses) — Coursera / Google | Completed via MedTourEasy Internship
- Business Analysis & Process Management — Coursera
- Introduction to Data Analytics — LinkedIn Learning
